

Forschungswerkstatt

Architektur – Theorie – Geschichte

Prof. Dr. Adria Daraban; Franziska Wilcken M.A.; Maurice Denechaud M.Sc.

A critical and engaged examination of the changing demands of the present takes place through dialogue. The Department of ARCHITECTURE – THEORY – HISTORY aims to establish a center that consolidates, coordinates, and promotes ongoing research and continuous discourse across the various disciplines.

The Research Workshop—a doctoral and research colloquium—provides young scholars with a forum for dialogue and exchange. As part of the Research Workshop, faculty members and invited speakers regularly give presentations on their dissertation or research projects. The Research Workshop is also intended to connect with the network for doctoral students at the University of the Greater Region. The Research Workshop takes place at irregular intervals. Please check the bulletin boards and circular emails.

Beginn: **dienstags 19:00-20:30 Uhr**
Ort: **Raum 1-120**
